Jonathan, Beth and I were discussing the upcoming 5 year review for EMF (Due July 1, 2015). It is our understanding that this is the first 5-year review at the Site, even though the original ROD was signed in 1998 and there was action at the Simplot OU (and maybe FMC but that's not mine) prior to the IRODA.

So, just checking in with a few of the Site historians ---- Are you aware of any

previous 5-year reviews for this Site?

Thanks

Jannine and Jonathan
